Impact Tester System -- Model ITB2A

The Impact Tester, Model ITB2A, has been developed in accordance with product safety standards IEC 60065 and IEC60950 and can be used for many other applications. It is used to determine the effectiveness of insulating enclosures and barriers and anywhere the robustness of mechanical assemblies is important. The Impact Test Ball ITB2 is made of chrome plated steel, providing durability and corrosion resistance.

Specifications

Impactor: 50.8mm (2 Inches)

Impactor Mass: 540 grams nominal

Rule: 600mm (24 Inches)

Tube: (1) Long & (1) Short Clear Tube

Drop Pin
